

Imperial Arts and Science Report
Dame Seraphine MacLaren of the O'Neill Mor
November 2012

To their Imperial Majesties and the Empire as a whole. Here is the report for the Ministry of Arts and Science to be presented before the Imperial Estates.

Presently we are asking for Deputy Arts Ministers for the SE, SW and NE. Dame Amara will continue in the NW and Dame Melora will continue in Canada.

The Proposal CRB5 passed in the July Estates and therefore instead of 4 entries at the contested wars we will be seeing only 2. I think this alone will help us move forward in the arts and help judges and artisans alike.

NB9 and NB10 were presented by Her Imperial Majesty at the July Estates. They clarify the rules for group entries. It is important that once and for all this issue is settled so that our Artisans are no longer confused as to what is needed for that entry to have it officially judged. This will be voted on in November.

There are still discrepancies in the manual and therefore it will be our goal to go over those, discuss these with Their Majesties and other Arts Knights and begin to clean up this manual.

As always this ministry is open to suggestions from anyone around the Empire who has a thought or idea that will help to improve the arts. This past few months on the boards there has been many a rousing discussion and it has helped to alleviate some of the misconceptions allowed us to discuss rules and prepare for the Imperial Crown War. I do feel that communication and sharing of ideas has led to positive movement in the arts.

YIS

Dame Seraphine MacLaren of the O'Neill Mor
Imperial Minister of Arts and Science

Below you will find a list of who has reported to this office and who has not. As you can see by this report we have much work to do and we continue to encourage all areas of the Empire to report and ask help of this ministry as needed. I will apologize in Advance if I have missed anyone in the reporting emails. Please contact me privately and I will fix it.
