

Unto Their Imperial Majesties, Their Royal Majesties, Their Graces, good nobles, ministers & populace do I, Sir Dorn das Schwarz Brause send greetings.

I thank you for your patience. All submissions have been processed. I know there have been some issues with missing submissions; any that had to be resubmitted will be processed forthwith.

There is a misunderstanding regarding Matriculations. If you transfer Territories (either by renewing into a new one or by transferring in the middle of the year) your personal arms (the ones used to represent you) will transfer with a simple request. If you wish to transfer Estate Arms (ie for a House) the process is described in IEW#25 & in the Heraldry Manual Section II.C.

For those that wish to transfer Arms registered to a Territory. That is an entirely different process. There are more than a few factors involved. This is done on a case by case situation. However; just because your name is on the form that was submitted for registration does not mean you have a claim to those Arms.

## Connacht:

### House of Polaris

Device 50-01

Sable, in pale a mullet of eight elongated at base Or & a fox sejant gardant contourne argent

Reasons: Non period motif. If the submitter were to present documents detailing the use of an “elongated” mullet. I would reconsider this.

### House of Polaris

Badge 50-01

## Umbria:

### House Beherberger Mitternacgt Wolpertinger

Device 03-01

Quarterly, argent & azure, a chimera rampant counterchanged within a border sable

Reasons: RoT violation. Sable border can not be placed on a azure field. None period charge. What is depicted in the image is not a chimera. A chimera has “the face of a maiden, the mane & legs of a lion, the body of a goat & the tail of a dragon” this has the body of a lion with three heads (lion, goat, dragon). Also, it was not used in heraldry only the crest.
