

LETTER OF REGISTRATION AND
RETURN
MARCH - APRIL 2015

Unto Their Imperial Majesties, and to all unto these letters come do I, Baron Sebastian Javier de la Cruz, Imperial Sovereign of Arms, send greetings.

This is the Official Letter of Registration and Return for the months of March and April, 2015.

Reports were received from the following chapters:

Albion-Rayonne, Alhambra, Auroch's Fjord, Constantinople, Connacht, Drachetor, Esperance, Gloucester, Glynmore, Konigsberg, Malta, Monaco, Murrisk, Somerset

The following chapters did not send in reports:

Altland, Bisqaia, Brandenburg, Brunico, Cashel, Chesapeake, Cyprus, Lancaster, Pembroke, Raven's Fjord, Roanoke, Terre Neuve, Thinaria, Umbria, Varheim, Wolfendorf, York

In this LoRR we have one chapter whose primary arms are being retired and inducted to the Historical Estates, one correction, three transfers, fifteen releases, seventeen new registrations, and only three returns.

On the subject of the arms being inducted in to the Historical Estates, as of the publishing of this LoRR, any and all arms previously registered under the Shire of Tyr-Lynn shall be retired. The arms of select local estates and the populace of Tyr-Lynn shall have their devices transferred in to the Shire of Konigsberg.

As this is not a new Shire, but rather a rename of an existing chapter, no official transfer request needed to be received by the College of Arms. All existing Tyr-Lynn owned arms will be automatically listed under the name of the Shire of Konigsberg.

Now, on to the registrations!

[ISOA Note: Violation of the rules on Slot Machine heraldry {X.D.1-3}. When three or more charges are placed on a field without directly interacting, or are of equal weight, it is considered slot machine heraldry. This is not a period practice. Suggest using only a cat or only a wolf instead of one of each.]

Alhambra

Garran

Device

7965

Argent, a tree blasted and eradicated within a bordure Vert semy of a spoon and dagger crossed in saltire Argent.

[ISOA Note: While not technically a violation of the rules of display to semy crossed charges like this, the use of semy on the border creates a problem with being identifiable. From a distance, the spoon and dagger would be extremely difficult to identify. Even on the submission form, they are difficult to identify. I suggest a redraw or a reconsideration on a semy of crossed charges.]

Murrisk

Balfor Parmaloche

Device

5244

Purpure, a griffin seagrant Gules, armed Or, fimbriated Argent.

[ISOA Note: Violation of the fimbriation rules {VII.D.1}. Only simple geometric charges, such as straight-edged crosses, roundels, or lozenges may be fimbriated. Suggest splitting the field to be Purpure and Or, or Purpure and Argent, such that at least 50% of the Gules of the griffin will be on a metal field.]
