Letter of Registration and Return

November 2017

TO ALL SINGULAR as well as Nobles and Gentles and others to whom these presents shall Come,

Sir L'Bet'e deAcmd,

Fleur-de-Lis Principal Herald and King of Arms of the Realm and Empire of Adria sendeth Greetings.

I must take a moment and thank all those who have waited patiently. The College of Arms and the process of registration is founded in the commitment towards representing historical concepts of formalized heraldry from our time period. Our rules and the processes are drawn from years of research, review and contemplation in order to meet that goal. The greatest challenge of the College has always been one of education, not only to the populace at large but within its own ranks. One of the hardest concepts to convey is that heraldry is not just a picture of various elements but a true Art and Science.

With that said I present the Letter of Registration and Return, November 2018.

Sir L'Bet'e deAcmd.

Stylization

A misnomer has been spreading for some time about the submitting of charges in wanting one thing and presenting another. Stylization is an aspect which takes in to consideration different artistic takes on a specific element. Example an Eagle;

There are many different artistic styles in history of eagles, but the fact is they are still a "Eagle".

The Aspect of submitting an Eagle because s submitters Dragon would not pass and then using the dragon in an actual display is plainly wrong.

Asking a Herald to call a musical note, a horse shoe, when the design is truly a musical note just so one can get their note passed is plainly wrong.

Flags

On the Device form there is an option of "Flag", this option is reserved for chapters and not individuals. I would ask all heralds to please inform their populace when filling such out.
