Greetings unto the populace of Adria!

Well, it has been a long haul. Things have been happening in the heraldry department, but due to my insane work schedule, I have not been able to keep up with sending out the LORRs. I sincerely apologize to everyone that has been patiently waiting. My goal is to put this one out with older stuff that has been waiting, and then another one shortly thereafter with the more current stuff that the team is all working on as we speak.

Thank you everyone for your patience as I try and work through this.

ALL submission are to be sent directly through me please, herald@varheim.ca

If you do not receive a reply from me within 3 days acknowledging receipt,
please check the address is correct and resend. Thank you.

In service,

Princess Gabriele Silverhand

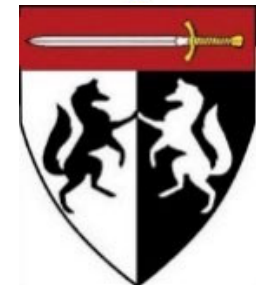

Imperial Sovereign of Arms

Auroch's Fjord

Elizabeth Holiday –
requesting a paw print

Ruling: It would seem that Nigel made a ruling and put it into the manual that pawprints were not to be allowed. The 2019 approved one apparently was approved before Nigel's ruling and was just an update in the database. The team is in agreement, so I am afraid we cannot put this through. We have been making allowances for new creatures, but a pawprint is a more modern symbol that would take away from the outward display of heraldry that we are trying to preserve.
